

SHIFAT E RASUL

Full Stack Developer (Laravel & React Specialist)

Dhaka, Bangladesh | [LinkedIn](#) | [GitHub](#)

Email: shifaterasulbd@gmail.com | Phone: +8801871769835

OBJECTIVE

Dynamic Full Stack Developer with 6+ years of experience in architecting scalable web applications. Expert in the Laravel ecosystem (Laravel 12) and Modern Frontend (React.js, Next.js). Proven track record in leading development teams, migrating legacy systems with a 25% efficiency gain, and conducting Vulnerability Assessments (VAPT) to ensure high-security standards. Passionate about clean code, RESTful architecture, and performance optimization for global products.

TECHNICAL SKILLS

- Backend: PHP, Laravel, Node.js, RESTful APIs, Microservices.
- Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, shadcn/ui.
- Databases: MySQL, PostgreSQL, MongoDB, Redis (Caching).
- Security & Tools: Docker, Linux/Server Management (Laragon, HeidiSQL), CI/CD (GitHub Actions / GitLab CI).
- Key Competencies: System Architecture, Block Chain, Database Optimization, Scalable Web Design, Agile Methodology.

WORK HISTORY

Senior IT Executive — Arbella Group *March 2026 – Present*

- Developed and maintained web applications using React.js and Laravel, covering both frontend and backend development.
- Developed a multi-warehouse inventory management system with barcode-based tracking and carton management for accurate stock control across locations.
- Built and maintain 1971co.com, a live e-commerce platform, handling feature development and ongoing production support.
- Built and maintain viveren.com, a live e-commerce platform, handling feature development and ongoing production support.

Full Stack Developer (Laravel & React) — Egens Lab Limited *Nov 2023 – March 2026*

- Architected and led the development of high-traffic e-commerce and task management platforms using Laravel and React.js.
- Optimized backend performance by implementing advanced caching and database indexing, significantly reducing API response times.
- Migrated legacy frontend codebases to React.js, which accelerated the development lifecycle by 25%.
- Security Lead: Integrated security best practices into the CI/CD pipeline, performing regular audits to prevent vulnerabilities.

Full Stack Developer — Unico IT Limited *Jun 2023 – Sep 2023*

- Developed scalable RESTful APIs for seamless integration between web and mobile platforms.
- Vulnerability Testing: Performed Black-box testing on live e-commerce platforms, identifying and patching critical vulnerabilities like SQL Injection and XSS.
- Designed responsive UIs that improved user engagement metrics by ensuring cross-browser compatibility.

Senior Developer (PHP/Laravel) — S/R Soft *Mar 2021 – April 2023*

- Engineered end-to-end web applications for international clients, focusing on clean, maintainable code and SOLID principles.
- Troubleshooted complex architectural bottlenecks, ensuring 99.9% uptime for client projects.
- Mentored junior developers in adopting Laravel best practices and version control workflows.

NOTABLE PROJECTS

RestroHub (SaaS): A comprehensive Restaurant Management System (POS) featuring KDS, inventory tracking, and real-time analytics. [restrohub.shop](#)

Custom CRM: Developed a full-scale CRM using Laravel and shadcn/ui, featuring Lead tracking, Opportunity management, and Deal pipelines.

E-Commerce Engine: Created a modular e-commerce solution with integrated payment gateways and multi-vendor support. [zoyeq.com](#)

Travel OTP Platform: A travel website containing tour packages, hotels, and activities. [triprex-app.egenslab.com](#)

Auction Platform: A comprehensive auction platform, Bidout. bidout-app.egenslab.com

Job Searching Platform: A fully dynamic and user-friendly job searching platform, Empzio. empzio-app.egenslab.com

1971co.com (E-Commerce): Live e-commerce platform built and maintained on Laravel and React.js, including VPS deployment, performance optimization, and feature development. 1971co.com

viveren.com (E-Commerce): Live e-commerce platform built and maintained on Laravel and React.js, including VPS deployment, performance optimization, and feature development. viveren.com

EDUCATION

- Bachelor of Science in Computer Science & Engineering — Northern University Bangladesh | CGPA: 3.11/4.00

CERTIFICATIONS & ACHIEVEMENTS

- Cybersecurity: Participated in National Cyber Drill 2020, Bangladesh.
- Competitive Programming: Active participant on UVA and Codeforces.
- Communication: Award-winning English Public Speaker and Debater.
